

09:30 – 10:30

Mathematics: Year 6 – Volume – Counting Cubes

Thursday 4th March 2021
04/03/2021

How will you know that you have been successful?
What am I looking for?

- You will know that volume is the amount of solid space that something takes up
- You will know that volume is different from capacity (capacity is related to the amount a container can hold)
- You will begin to describe volume as centimetres cubed

Today's lesson will use a White Rose Video lesson. Click on the link to the right to view the lesson and then complete the worksheet which is saved as a separate file.
