## Mathematics: Year 5 – Area of Irregular Shapes

Thursday 4<sup>th</sup> March 2021

04/03/2021

How will you know that you have been successful?  
What am I looking for?

- You will use your knowledge of counting squares to estimate the areas of shapes which are not rectilinear.
- You will be able to use your knowledge of fractions to estimate how much of a square is covered and combine different part covered squares to approximate an overall area.

**Today's lesson will be completed using the White Rose Lesson Video. Click on the image to the right to launch the video. The worksheet is saved as a separate file.**
