

Year 2/3/4 Curriculum Newsletter

Autumn Term 1 – 2023

Dear Parents, Carers,

This term, so far has gone very well. The children have been settling in well and starting to get to know their new class mates.

Maths:

The children will be learning about place value this term.

We will be using Times Table Rockstars in class. Knowing their times tables will help them in maths this year tremendously, as it will help enable them to access their learning more efficiently.

PE and Games:

This term the children will be developing their fitness, skills and stamina through a range of athletic activities and games. They will be encouraged to evaluate improvements and work as a team with Miss Rye.

French:

The children will be learning how to count to 30, tell the date and various meet and greet phrases.

If you have any questions, please do drop in and ask!

Kind regards, Mrs Riding.

Theme:

During the first part of term we will be exploring Scotland and Edinburgh, including making a mountain which we hope will expand into a diorama. The last 3 weeks of term we will be investigating Myths and Legends. In particular, the Loch Ness Monster.

English, Spelling, Punctuation and Grammar:

The children continue to secure their application of spelling. This is done through direct teaching and spelling shed. This term the children will be learning about homophones, prefixes and suffixes.

Woodland:

The children will be looking closely at teamwork and problem solving.

RE:

This term RE will be taught by Mrs Barham. The theme is What do Christians learn from the creation story?

Home challenge:

To make a junk model or poster about the Loch Ness Monster ready for our new theme in week 4. These will be then be displayed on our theme board!
